Dear Sir/Madam,

I am writing to express my interest in participating to the Master Program in Managing Digital Transformation in the Health Sector. As a graduate of the Bachelor Degree in Speech and Language Pathologist from the European University Cyprus, I believe that I have the necessary skills and qualifications to participate in this program.

I am an exceptionally organized and hard-working individual who is always looking for ways to improve. As a fast learner, I am responsible and work well with others, making me an ideal candidate for this program in order to enhance my knowledge on how to plan and support the digitalisation of health and social care services. My experience in clinical practice, speech and language therapies for people with dementia has given me invaluable knowledge and skills. I am genuinely interested in exploitation of new developments and procedures supported by Information and Communication Technologies (ICT). I am confident that my passion for this field, combined with my academic achievements and personal characteristics, will make me an excellent addition to the program.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further.

Sincerely,

Afroditi Anastasiou
