WORK EXPERIENCE

IT Consultant

BI4ALL [01/09/2022 – 01/02/2024]

City: Lisbon | **Country:** Portugal

In recent consulting projects, I contributed to a banking sector's Cloud migration initiative, focusing on unit tests, corrections, and production support. As part of a collaborative team, I played a role in implementing new fields and addressing tickets, enhancing my problem-solving skills and proficiency in Azure Databricks. In a separate medical technology project, I identified discrepancies in transactional data during the Qlik to Power BI migration. Collaborating with cross-functional teams, I reported issues to my manager, facilitating the resolution process through appropriate channels.

Data Scientist & BI Intern

BI4ALL [01/08/2022 – 01/09/2022]

City: Lisbon | **Country:** Portugal

Development of a model to predict flight delays for an international airline, using the Azure environment, as well as platforms such as Databricks and Power BI.

Data Scientist Intern

AIR CENTRE [01/07/2022 – 01/08/2022]

City: Angra do Heroismo | **Country:** Portugal

Collaboration on the research and development project "Sistema de Alerta Pithomyces Chartarum" (SAPc), using tools such as R and packages such as dplyr, ggplot2 and tidyr.
