University Institute of Lisbon Lisbon, Portugal, Lisbon, Portugal

Subject: Application for Master's Degree Program in Managing Digital Transformation in the Health Sector

Dear Sir/Madam

I am writing to express my keen interest in the Master's Degree program in Managing Digital Transformation in the Health Sector (ManagiDiTH), as advertised. With my background and aspirations, I am confident that this program aligns perfectly with my career goals and aspirations for professional development.

My name is Iftikhar Ahmad, currently residing in Portugal. I hold a Bachelor of Science in Computer Science from The University of Haripur, Pakistan. My academic journey and professional experiences have equipped me with a diverse skill set, particularly in machine learning, data science and software development.

During my tenure as a Research Fellow at the Institute of Polytechnic, Tomar, Portugal, I had the privilege to work on the CRASH project, where I contributed significantly to the development of a high-precision reconstruction system for crash simulations. My responsibilities included data collection, analysis, and seamless integration of the system into professional simulation environments. This experience instilled in me a deep appreciation for the intersection of technology and healthcare, igniting my passion for digital transformation in the health sector.

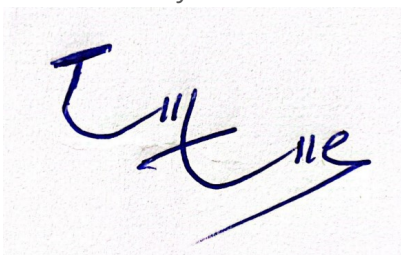

The ManagiDiTH Master's program offers a unique opportunity to deepen my understanding of digital transformation in healthcare while providing multidisciplinary knowledge essential for planning and supporting the digitization of healthcare services. I am particularly drawn to the program's emphasis on health sector skills, societal skills, and digital skills, which are integral for addressing the evolving challenges in healthcare delivery.

I am excited about the prospect of studying in a multicultural environment alongside students from diverse backgrounds, fostering a rich learning experience and meaningful networking opportunities.

In conclusion, I am enthusiastic about the possibility of being part of the ManagiDiTH Master's program and contributing to the advancement of digital transformation in the health sector. I am confident that my academic background, professional experiences, and dedication to learning make me a strong candidate for this program. I look forward to the opportunity to further discuss my application and how I can contribute to the program's objectives.

Thank you for considering my application.

Yours sincerely

Iftikhar Ahmad
