16 APRIL 2024

Dear Sir or Madam,

With this letter, I would like to express my interest in studying for the Master's Degree in Managing Digital Transformation in the Health Sector at the converged online programme of AUTH, ISCT, and LAUREA high education institutions.

At homecare work I encounter daily the interdependent relationship between quality care and the adequate use of advanced technologies. From the application of artificial intelligence as an alerting tool to the very dispensation of medication we strongly lean on digital development. In my specific work role, I become the pivotal link between correct diagnostics and the efficient implementation of care. And the entire process would be currently impossible without the very abundant and useful technological tools at our disposal. Therefore, my awareness of the necessity of further enhancing my knowledge and proficiency in this area is adamant. I do not conceive professional growth without seeking forefront specialization in digital transformation. Thus, I am convinced that the present Master's Degree Programme can expertly equip me to achieve my goal.

Furthermore, this education comprises an excellent foundation on which to build upon when seeking, as I do, to achieve a practical and capable of impacting PhD in Health Sciences. Unfortunately, I spend too much time at work in front of a screen rather than providing direct interventional care to patients. But I am persuaded that by creating a solid platform we are then freed to perfect the systems by which we ensure the provision of safe care without compromising the human aspect that first drew me into the field of healthcare.

Thank you for considering my application. I look forward to your positive response.

Yours faithfully,

Luis
