The student's annual workload of 1600 hours is worth 60 ECTS credits.

The graduate has gained such oral and written skills in the obligatory foreign language required by the degree programme that are necessary for practicing the profession and for further professional development (Decree 1129/2014, 7§). The student has received her school education in the Finnish language and completed the maturity test included in the bachelor's thesis in the Finnish language. The student has acquired the language skills in Swedish required of state officials functioning in a position requiring a higher education in a bilingual office according to the Act (424/2003, 6§) with a grade of good (grade 4) in spoken language skills and good (course grade 4) in written language skills (grading scale satisfactory/good).

The degree of Bachelor of Health Care, Registered Nurse (sairaanhoitaja, AMK) is based on the Act on polytechnic studies (932/2014), Decree (1129/2014) and it gives a qualification for a position or post requiring a degree of higher education.

The studies fulfill the requirements stated in the legislation concerning health care professionals (Act 559/1994, Decree 564/1994) and the requirements of professional qualifications in the European Parliament and Council directive (EC/36/2005).
