

To the evaluation committee of Master Managing Digital Transformation in the Health Sector

Dear Sirs,

I am writing this letter to express my interest in applying for the Master's Degree in Managing Digital Transformation in the Health Sector.

My name is Ana Catarina Marques, I have a degree in Nursing from the Egas Moniz School of Health & Science and I have been working as a nurse in the field of mental health and psychiatry for 14 years.

I am fully convinced that attending this Master's Program will be a unique opportunity to leverage my knowledge and develop my skills in the area of digital health transformation.

My experience as a healthcare provider, combined with the practice of using digital tools in the healthcare sector and, subsequently, the knowledge that I will obtain through the master's degree, will allow me to be a differentiating element in digital optimization in the healthcare sector.

When I finish this master's degree, I hope to contribute to increasing the efficiency of TIC in my country and eventually allow me to transition my career to the digital area by participating in IT efficiency programs in the national health system or in consulting companies linked to the development of health IT programs.

Finally, I would like to highlight my commitment and enthusiasm to deepen my knowledge in an institution where rigor and teaching quality are recognized by the academic community. I would like to thank you for the time and consideration you have given to my application, which I hope will receive a positive response, and I remain at your disposal for any further clarification.

Respectfully,

Ana Catarina Dinis Marques.
