The Programme Coordinator  
ManagiDiTH

Dear Sir/Madam,

### **Letter of Motivation**

My name is Odetha Paulinus Ofem. I am a Finland resident currently living in Kilo, Espoo. I came across Laurea University of Applied Sciences' call for application into a master's programme in Managing Digital Transformation in the Health Sector. I therefore write to indicate my interest and motivation to pursue the programme.

Despite my bachelor's degree in mathematics, I have experience in health monitoring and evaluation and data processing. My decision to join my spouse in Finland, who works as a cybersecurity specialist and manager of an EU-funded project (MANOLO) at Laurea, has opened up new possibilities for my future career and life in Finland and Europe. I had already planned to pursue further education and a career in health before coming to Finland, and my family and I are excited about the prospect of a more permanent residency in Finland.

The ManagiDiTH master's programme presents a unique opportunity for me to gain a health/computing-related education and pursue a career serving Finland and Europe. I am highly motivated and enthusiastic about this prospect.

I believe that enrolling on the programme would be a great opportunity for me to reaching my career and life goals. It is my hope that my application to the ManagiDiTH programme would receive your kind consideration. Thank you.

Best regards,

Odetha Paulinus Ofem
