## **Motivation Letter**

Subject: application for the Master's Degree "Managing Digital Transformation in the Health Sector"

Dear Selection Committee,

I am writing to express my keen interest in pursuing the joint Master's degree in "Managing Digital Transformation in Digital Healthcare sector" established by the ISCTE – University Institute of Lisbon (Portugal), Aristotle University of Thessaloniki (Greece), and Laurea University of Applied Sciences (Finland). With a strong academic background, a passion for healthcare technology and management, and a drive for continuous learning and personal development, I am confident that this program aligns perfectly with my career aspirations and academic goals.

With a solid healthcare technology foundation acquired through my academic degrees and nearly a decade of experience in project management and administration, I am well-positioned to embark on a journey of knowledge expansion. This amalgamation of two distinct areas of expertise presents an exceptional opportunity for continuous learning and growth.

One of the aspects that attracted me to this Master's program is the opportunity to be educated by the scientists who are leaders in their respective fields from different universities and cultures. Throughout my studies and career, the international environment has seamlessly evolved into a fertile ground for my personal and professional growth. I am particularly interested in "Interoperability branch" and I am eager to contribute to ongoing research and collaborate with fellow scientists who share my research interests.

Furthermore, I believe that this Master program offers an enriching academic environment that fosters digital thinking and innovation. The opportunity to engage in interdisciplinary coursework will not only enhance my academic journey but also prepare me for the challenges and opportunities that lie ahead in my future career.

In conclusion, I am highly enthusiastic about the prospect of joining the Master programme and becoming a part of its vibrant academic community. I am committed to contributing positively to the program and seizing every opportunity for personal and professional growth. Thank you for considering my application. I look forward to the possibility of further discussing how my background and aspirations align with the goals of the Master's program.

Sincerely,

Dr. Anastassia Rodina-Theocharaki
