ISCTE, AUTH, LAUREA
Admissions Department

Dear Members of the Selection Committee,

My name is Sara Miriam Varandas dos Reis Caetano, and I am writing to express my interest in applying to the ManagiDITH program. I have an academic background in Pharmaceutical Sciences and I have been working in the health sector for many years. After a long period of dedication to my family and children, I want to extend my knowledge and I am excited about the prospect of continuing my studies with this programme.

I obtained my degree in Pharmaceutical Sciences from Coimbra University and my professional experience in Pharmacy, especially in individualized medication preparation, which I am responsible for, has allowed me to apply my academic knowledge in a practical environment. In the last years, I also participated in various research projects, in the health area.

During my time at this department, I have been able to prepare and deliver individualized medication to many elderly people, but struggled in the paper work and in the follow-up of my patients, which reinforced my desire to further deepen my knowledge and skills.

I am particularly interested in the Master's program due to its focus on Digital Transformation, which can allow me to be more efficient while optimizing costs, and develop new platforms of communication and follow-up of my patients.

I am confident that with my commitment and the excellence of this Master's Programme, I will achieve my goals.

I sincerely appreciate your consideration of my application and am available to provide any additional information that may be required.

Sincerely,

Sara Miriam Varandas dos Reis Caetano
