Admissions Committee
ISCTE – Instituto Universitário de Lisboa
Mestrado ManagiDiTH
Avenida das Forças Armadas
1649-026 Lisboa – Portugal

Dear Members of the Admissions Committee,

I am writing to express my interest in applying for the Master's Degree in Digital Transformation in Healthcare (ManagiDiTH) at ISCTE. As a nurse who recently transitioned into healthcare administration, I want to leverage cutting-edge IT solutions to improve healthcare delivery and patient outcomes.

With a Master's degree in Critical Care Nursing, I have spent several years providing direct patient care and understanding the intricacies of the healthcare system. My experience has highlighted technology's critical role in streamlining operations, ensuring patient safety, and enhancing the overall quality of care.

My recent move into healthcare administration at NOVA Healthcare Public School has further solidified my belief in the transformative power of IT. Working on projects that involved electronic health records (EHR) systems, telehealth initiatives, and data management, including a prized project in this area (LinkToLife) has ignited my passion for integrating advanced technologies in healthcare settings.

My background in nursing, combined with the administrative experience and the advanced IT knowledge from your program, will enable me to contribute significantly to the healthcare industry. I aim to develop and implement technological solutions that enhance patient care, optimize workflows, and improve healthcare systems' efficiency.

Thank you for considering my application. I look forward to contributing to and growing within the Master's program in Digital Transformation in Healthcare at ISCTE.

Sincerely,

Marta Dias Blanco
