TYÖTODISTUS

Työsuhde 28.12.2016 - 10.9.2023

Työn suorittamispaikka / työkohde Pharmac Finland Oy
28.12.2016 - 31.11.2020 Pharmacy student
1.12.2020 - 10.9.2023 Medical safety researcher

Pääasialliset työtehtävät

Antonia has worked several years in ADD production, performing different responsibilities and tasks such as operating ADD machinery, quality control of ADD pouches and packing and shipping orders to customers.

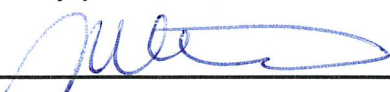

In collaboration with the university Antonia was involved in the development of OmaPro mobile app. Her contributions included conducting research, evaluations, and software testing of an artificial intelligence pill image recognition algorithm.

Arviointi

Antonia has carried out her duties responsibly. She has always been persistent to develop her skill set and learn more about the medical industry field. Antonia was good in investigating new things and she always had a lot of curiosity to search for new business ideas and competitive advantages for the company. She was a loyal and trusted colleague.
