061071-0562

The system of measuring higher education studies in Finland has changed. Credits have been replaced by the new unit of measurement, ECTS credit, on 1 January 2005. A student's annual workload of 1,600 hours will be worth 60 ECTS credits. The extent of degrees will remain unchanged.

The student has completed the degree in Finnish. He/she received his/her previous education in Finnish and has completed a maturity test in Finnish as part of his/her final project. The student has acquired the language skills in Swedish required of state officials functioning in a position requiring a higher education in a bilingual office according to the Act (424/2003, 6 §) with a grade of satisfactory in written language skills and satisfactory in spoken language skills. The student has also acquired the language skills in Swedish/Finnish necessary for practicing the profession and for further professional development (Decree 352/2003, 8 §, 1). The student has gained the necessary oral and written skills in English required for practising the profession and for further professional development (Decree 352/2003, Section 8).

The studies fulfill the requirements stated in the legislation concerning health care professionals (Act 559/1994, Act 1200/2007, Decree 564/1994) and the requirements of professional qualifications in the European Parliament and Council directive (EC/36/2005).
