Dear Sir or Madam,

With this letter, I would like to express my interest in studying the master's degree in Managing Digital Transformation in the Health Sector (ManagiDiTH), an international online programme delivered by three higher education institutions: ISTCTE, AUTH and LAUREA.

I chose this program because it matches my academic background, strengths and at the same time my interest for managing the digitalization of health services. I have observed that the technologies span a wide range of uses, from applications in general wellness. And meanwhile, the benefit from affordable health monitoring and actionable medication adherence tool now is escalating modern healthcare services.

This degree program endorses and provides me an opportunity to gain multidisciplinary knowledge on how to plan and support the digitalisation of healthcare and social care services and to promote the implementation of new procedures and services, supported by Information and Communication Technologies (ICT). I would like to expand my knowledge and transform my role of care provider by engaging myself being an innovative leader in digital healthcare.

Therefore, I am excited about the opportunity to pursue the doctoral degree in Digital Transformation in the Health Sector and contribute to your continued success in creating healing spaces. I am confident that my skills, experience, and passion for digitalization of health services provides me and promote me for modern healthcare future.

Thank you for considering my application. I look forward to the possibility for building a fruitful life and career.

Sincerely,  
Nabina Kunwar
