Dear Sir / Madam,

I hereby present my motivation letter for participating in your master's degree.

My name is Mariana Rocha, and I'm professionally integrated in the area of health.

Throughout my academic and professional career, I have seen the sudden evolution of technology in various areas, including health. This evolution, according to my perception, is contributing to faster responses and more personalized care according to the needs of each individual.

I'm very enthusiastic and interested in entering this master's program because it will allow me to develop as a professional as well as a person.

I'm looking forward to joining this course because of the multinational contact between students and teachers as well as gaining tools and techniques that link health and technology in order to be prepared for the challenges that presented to me in the future.

It is with great anticipation that I await admission to this master's degree.

Thank you in advance.

Best Regards,  
Mariana Rocha
