To the Coordinating Committee of the Master of Managing Digital Transformation in the Health Sector,

I am writing this letter to express my interest to apply for the ManagiDiTH Master programme. With a background in Portuguese healthcare system as diagnostic radiographer and a passion for technology, I want to contribute to the evolution of healthcare systems through digital innovation.

In my routine I realize that healthcare institutions face operational challenges that could be addressed through strategic implementation of digital technologies. And these digital solutions can improve patient care, enhancing operational efficiency, and reducing costs.

With this master I want to move my carrer to another field and I am confident that I will acquire knowledge and skills in Information and Communication Technologies to support this transition. I have particular interest of specialization branche in interoperability to ensure that different digital systems and platforms can communicate.

Thank you for considering my application. I am excited about the possibility of joining this international programme.

Yours faithfully,

Filipa Pires
