**Managing Digital Transformation in the  
Health Sector Master**

Dear Sirs,

I am writing to express my interest in the Digital Transformation Management in Healthcare Master offered by ISCTE-IUL, Aristotle University of Thessaloniki, and Laurea University of Applied Sciences. As a professional dedicated to the healthcare sector, I believe that digital transformation is essential for improving the efficiency, accessibility, and quality of healthcare services. I am convinced that this course will provide me with the necessary skills to lead and implement significant changes in my field.

I hold a degree in Nursing with a specialization in Medical-Surgical Nursing from the Nursing School of Coimbra, where I developed a solid foundation in relevant areas such as health management and training. Throughout my career, I have had the opportunity to work in various roles that have allowed me to gain a deep understanding of the challenges and opportunities in the healthcare sector. Currently, as a specialist nurse in the Palliative Care Unit – Portimão at the Algarve Local Health Unit, I am responsible for the Intra-Hospital Palliative Care Support Team, substitute for the Palliative Care Unit Nurse Manager during her absence, responsible for in-service training, and liaison to the institution's clinical governance program, specifically in the medication area.

One of the main reasons for my application to this course is the growing importance of digital transformation in the healthcare sector. I have observed how the implementation of innovative technologies can revolutionize the way healthcare services are delivered. I am particularly interested in learning about Technologies in Interoperable Health Ecosystems and E-health and Telemedicine.

I am excited about the possibility of participating in this program and am confident that my interest, combined with my experience and the training offered by the course, will enable me to meet new professional challenges. Thank you in advance for considering my application. I am available to provide any additional information that may be required.

Sincerely,

Ana Maria Alves de Sousa
