PROFILE

Nurse and Master of Science in Industrial Engineering and Management with a strong interest and strengths in human-centered leadership and operational development. I am a developer who works well with good collaboration.

WORK HISTORY

- **PPSHP/Pohde OYS Inner Medicine Center** 01/2022 - PRESENT
Service Manager
 - My area of responsibility includes 14 operational units (wards, procedure units, and outpatient clinics)
 - The most essential part of my role is the development of the units' operations and processes.
 - Additionally, I am responsible for investment planning and procurement, financial monitoring, and considering customer and quality perspectives.
 - One of the key and interesting tasks has been the responsibility for planning the relocation of our units to a new hospital.
- **PPSHP/Renal Department** 11/2019 - 12/2021
Assistant Head Nurse/Head nurse
 - Managing daily operations and personnel administration in the Renal Department together with the head nurse.
 - There were approximately 25 subordinates in the unit.
 - During the period from April 1 to December 31, 2021, I covered 50% of the head nurse's duties.
- **PPSHP/Renal Department** 4/2017-- 10/2019
Nurse
 - I was involved in nursing work performing hemodialysis. I worked as a shift supervisor and on-call nurse responsible for emergency dialysis in intensive care units, pediatric dialysis, and plasma exchanges.

EDUCATION

- **Registered Nurse (Bachelor of Health Care)** 2015-2019
Oulu University of Applied Sciences, Oulu
- **Master of Science in Industrial Engineering and Management** 2007-2012
University of Oulu, Faculty of Industrial Engineering and Management, Oulu
 - Advanced studies in Production Operations Management.
 - The topic of my thesis was 'Prioritization and Elimination of Waste in the Construction Industry.'
- **High School Graduate** 2006
Lyseonpuisto High School, Rovaniemi

PROFESSIONAL DEVELOPMENT

- **Specialist Vocational Qualification in Product Development** 2022-2023
Management Institute of Finland, Oulu
- **Specialist Vocational Qualification in Leadership and Business Management** 2020-2021
Management Institute of Finland, Oulu
 - The education included conducting a 360-degree leadership survey. I received excellent feedback on my leadership skills from the survey.
