

Motivation letter for Master's degree Programme in Managing Digital Transformation in the Health Sector

My name is Samuli Manninen, and I am writing to express my interest in the Master's Degree Programme in Managing Digital Transformation in the Health Sector. I am highly interested in continuous self-development, and I see many opportunities in this program.

I have worked for several years in the healthcare sector at a Oulu's University Hospital. In my current role as a Service Manager, my main focus is on operational development. I have developed outpatient services at Oulu University Hospital with digital solutions, such as digital care pathways.

I hold a Master's degree in Industrial Engineering and Management and a degree in Nursing. These degrees support me in my current job. My studies in Industrial Engineering have provided me with a strong foundation in operational development and management, while my Nursing education has given me a deep understanding of healthcare practices and patient care.

I am constantly looking to develop myself, and this program would provide me with new tools and ideas for developing digital solutions. I also want to learn about international practices and innovations in this field.

I am motivated and committed to learning new things and developing myself professionally. I believe that this program offers an excellent opportunity to deepen my knowledge and advance the development of digital solutions in healthcare.

Yours sincerely,

Samuli Manninen
