CONTROL NUMBER

424efd3111449330

Following the model developed by:

*UNESCO - CEPES

*COUNCIL OF EUROPE

*EUROPEAN COMMISSION

This Diploma Supplement follows the model developed by the European Commission, Council of Europe and UNESCO/CEPES.

The purpose of the supplement is to provide sufficient independent data to improve the international "transparency" and fair academic and professional recognition of qualifications (diplomas, degrees, certificates, etc).

It is designed to provide a description of the nature, level, context, content and status of the studies the were pursued and successfully completed by the individual named on the original qualification to which this supplement is appended.

It should be free from any value judgements, equivalence statements or suggestions about recognition.

Extra long life paper.

Printed with high technology against counterfeiting and tampering.

1. Information identifying the holder of the qualification

1.1. Family name(s)

Barreiros Mota

1.2. Given name(s)

Mafalda

1.3. Date of birth (day/month/year)

12/05/1997

1.4. Student Identification Number

37969

Identity Card (cc) Number: 14156463

2. Information identifying the qualification

2.1. Name of qualification and (if applicable) title conferred

Licenciatura em Enfermagem.

The award confers the degree of *Licenciado*.

2.2. Main field(s) of study for the qualification

Nursing and caring

2.3. Name and status of awarding institution

Universidade de Évora, public university, founded in 1979 by the Decree-law no. 482/79, published in the Republic Diary no. 287/1979, Series I, of December 14.

2.4. Name and type of institution (if different from 2.3) administering studies

Not applicable.

2.5. Language(s) of instruction/examination

3. Information on the level of the qualification

3.1. Level of qualification

University Education, Licenciatura (1st Cycle), corresponding to EQF level 6 and to level 5 (ISCED) (see Section 8).

3.2. Official length of programme

4 year(s) - 240 ECTS credits (1 ECTS is equivalent to 26 hours of student's workload)

3.3. Access requirement(s)

General regime to accede to higher education

National and foreign students wishing to apply to the 1st cycle of studies leading to the licenciado degree through the general regime must fulfil the following conditions:

- Have successfully completed a secondary course or a national or foreign qualification legally equivalent;
- Have set for the entrance examinations required for the degree programme the student wishes to attend and get the minimal mark required (there are higher education institutions that accept foreign tests or exams);
- Have fulfilled the prerequisites for the higher education course the student wishes to attend, if required.

An annual competition is held by the Directorate-General for Higher Education for application to public higher education through the general regime.

Institutional competitions are held for application to private higher education through the general regime.

Special conditions

Besides the regime geral (general regime), there are special conditions that apply to top level athletes, Portuguese citizens on an official mission abroad, national or foreign diplomatic staff, permanent staff of the Portuguese Armed Forces and scholarship holders within the framework of cooperation agreements agreed by Portugal.

An annual competition is held by the Directorate-General for Higher Education for application to public higher education through the special conditions.

Special Competitions

Besides the general regime and the special conditions, there are special competitions for applicants holding specific qualifications, thus opening higher education to new publics in a lifelong learning perspective, namely:

- applicants over 23 years old who have passed a especial exam for assessing their capacity to accede to higher education;
- Holders of other higher education courses, técnico superior profissional diplomas, and diploma de especialização tecnológica (a postsecondary course certificate);
- Holders of the licenciado degree wishing to apply to Medicine;
- International students.

In addition, students who have been or are registered and enrolled in higher education are allowed to apply for readmission or to opt for another institution/programme pairing.

The special competitions for applying to higher education are held by higher education institutions.

4. Information on the contents and results gained

4.1. Mode of study

Day classes

4.2. Programme requirements, objectives and output

For obtaining the Licenciado degree in **Enfermagem**, the student should obtain approval at a minimum of 237 ECTS plus 3 ECTS on optional units. The workload of an academic year of study amounts to 1560 hours, and has a duration of 38 weeks. The contact hours of teaching period is 30 weeks.

The undergraduate degree in Nursing seeks to provide a comprehensive education to offer students the opportunity to acquire the knowledge and skills that will allow them to develop the competencies needed to offer general healthcare to individuals at any stage of the life cycle and in any context. Furthermore, it seeks to equip students with the critical and reflexive capacity for the purposes of personal and professional development. Graduates in Nursing may ask to be registered with the Portuguese Order of Nurses, to be officially recognised as a Nurse and thus professionally work as a nurse in Portugal.

4.3. Programme details

Curricular structure published in the Diário da República nº 196 de 11 de outubro, Aviso n.º 16232/2019.

The Transcript of Records is enclosed (see Annex I).

4.4. Grading scheme

National Grade Scheme

Final classification is obtained by a weight average from all the grades obtained for each unit, the weights are established in accordance to the number of ECTS, and it is expressed in the entire numerical scale of 0 to 20, which is associated to following qualitative mention:

10-13	Suficiente (Adequate)
14-15	Bom (Good)
16-17	Muito Bom (Very good)
18-20	Excelente (Excellent)

ECTS Classification Scheme

The European scale of comparability of ECTS classifications to the modules or course units is based on all final marks of all modules or course grades, from the three academic years previous to the obtaining of the modules or course units. (ECTS Users Guide available in <http://ec.europa.eu/education/library/publications/2015/ects-users-guide-en.pdf>).

ECTS classification	Classification
A	17-20
B	15-16
C	13-14
D	11-12
E	10

4.5. Overall classification of the qualification

Licenciatura (1st Cycle) completed on **July 3, 2020**, with a final grade of **15 (fifteen) - Bom** and the ECTS classification **B**.

5. Information on the function of the qualification

5.1. Access to further study

This qualification gives access to an Academic and/or Professional higher level education (2nd or 3rd cycle, as described under section 8).

5.2. Professional status

Not applicable

6. Additional information

6.1. Additional information

The additional information is enclosed (see Annex II)

6.2. Further information sources

7. Certification of the supplement

7.1. Date

July 7, 2020

7.2. Signature

Maria Alexandra C. M. Lopes Fernandes

Ana Costa Freitas

7.3. Position

Academic Services Officer of Universidade
de Évora

Rector of Universidade de Évora

7.4. Official stamp

This document is officially stamped.

8. Information on the Portuguese Higher Education System

The Framework Law on the Education System (Law no. 46/86 of 14 October, amended by Law no. 115/97, dated 19 September and Law no. 49/2005, dated 30 August, republished and renumbered in annex to the latter) establishes the general legal framework of the Education System.

The **educational system** comprises three levels: basic, secondary and higher education. Pre-school education is for children aged between 3 and the age of entering basic education, and is universal for children from the age of 5.

Basic education is universal, compulsory and free and comprises three sequential cycles, the 1st lasting four years, the 2nd lasting two years, and the 3rd lasting three years.

Secondary education comprises a three-year cycle (corresponding to the 10th, 11th and 12th years of schooling) and must be completed by schooled young people, an obligation that ceases at the age of 18.

National Qualifications Framework

The National Qualifications Framework (QNQ) was adopted in 2009. It comprises the formal qualifications of all education and training subsystems as well as the non-formal qualifications derived from professional experience within the framework of the National Qualifications System. It includes eight levels of qualification, following the levels and descriptors of the European Qualifications Framework (EQF). The QNQ is referenced to the EQF.

Higher Education Structure

Portuguese higher education includes university and polytechnic education. University education is provided by public and private university institutions while polytechnic education is provided by public and private non-university institutions. Private higher education institutions are subject to prior recognition by the competent Ministry.

Licenciado degree

Both university and polytechnic education institutions award the degree of licenciado.

In polytechnic education, the cycle of studies leading to the degree of licenciado normally lasts six curricular semesters corresponding to 180 ECTS credits. In exceptional cases covered by national or European Union legislation, it may last up to seven or eight curricular semesters with up to 240 ECTS credits of student work. In university education, the cycle of studies leading to the degree of licenciado ranges from 180 to 240 ECTS credits, and normally lasts from six to eight curricular semesters.

In the 1st cycle of studies the degree of licenciado is awarded to those who pass all the course units of the licenciatura study programme, therefore obtaining the required number of credits.

The degree of licenciado corresponds to the level 6 of the QNQ and EQF.

Mestre degree

Both university and polytechnic education institutions award the degree of mestre. The cycle of studies leading to the degree of mestre ranges from 90 to 120 credits, and normally lasts from three to four curricular semesters. In exceptional circumstances resulting from a stable and consolidated practice in that specific field at international level, it may amount to 60 ECTS credits and last two semesters.

In polytechnic education, the cycle of studies leading to the mestre degree must ensure predominantly that the student acquires a professional specialization. In university education, the cycle of studies leading to the mestre degree must ensure mainly that the student acquires an academic specialization through research, innovation or development of professional competences.

In university education, the mestre degree may also be awarded upon completion of an integrated cycle of studies, ranging from 300 to 360 ECTS credits and usually lasting 10 to 12 curricular semesters, in cases where the access to the practice of a certain professional activity depends on that length of time in accordance with European Union legal standards or results from a regular practice consolidated within the European Union. Within this cycle of studies, the degree of licenciado is awarded to those who have obtained 180 ECTS credits corresponding to the first six curricular semesters.

In the 2nd cycle of studies, the degree of mestre is awarded to those who have passed all the course units of the mestrado study programme, and who have publicly defended an original dissertation, project work or traineeship report, therefore obtaining the required number of credits. The mestre degree corresponds to the level 7 of the QNQ and EQF.

Doutor degree

The Doutor degree is awarded by universities and university institutes to those who have passed all the course units of the Doutoramento study programme, when applicable, and who have publicly defended an original thesis. It may also be awarded on account of a coherent and relevant set of research works or, in the field of the arts, on a work or a set of works or achievements. The doutor degree corresponds to the level 8 of the QNQ and EQF.

Cursos Técnicos Superiores Profissionais

The técnico superior profissional diploma is awarded upon completion of a non-degree higher education cycle of studies entitled curso técnico superior profissional (CTeSP). It corresponds to a short cycle of studies within the cycle of studies leading to the licenciado degree. The CTeSP are provided by polytechnic higher education institutions as well as polytechnic organic units integrated in universities.

The CTeSP have 120 ECTS credits and normally last four curricular semesters including general, scientific and technical subjects, as well as a training period at the workplace.

Other diplomas

Higher education diplomas may also be awarded following the partial completion of a cycle of studies. In such cases, the chosen title must differ from the title of the final award of the applicable degree.

Diplomas may also be awarded for non-degree courses, some of which are regulated, e.g. postgraduate specialization courses in Nursing or supplementary courses in Nursing or Teaching.

Access conditions

Admission to higher education institutions is subject to *numerus clausus*.

General regime to accede to higher education

National and foreign students wishing to apply to the 1st cycle of studies leading to the licenciado degree through the general regime must fulfil the following conditions:

- Have successfully completed a secondary course or a national or foreign qualification legally equivalent;
- Have set for the entrance examinations required for the degree programme the student wishes to attend and get the minimal mark required (there are higher education institutions that accept foreign tests or exams);
- Have fulfilled the prerequisites for the higher education course the student wishes to attend, if required.

An annual competition is held by the Directorate-General for Higher Education for application to public higher education through the general regime.

Institutional competitions are held for application to private higher education through the general regime.

Special conditions

Besides the regime geral (general regime), there are special conditions that apply to top level athletes, Portuguese citizens on an official mission abroad, national or foreign diplomatic staff, permanent staff of the Portuguese Armed Forces and scholarship holders within the framework of cooperation agreements agreed by Portugal.

An annual competition is held by the Directorate-General for Higher Education for application to public higher education through the special conditions.

Special Competitions

Besides the general regime and the special conditions, there are special competitions for applicants holding specific qualifications, thus opening higher education to new publics in a lifelong learning perspective, namely:

- applicants over 23 years old who have passed a especial exam for assessing their capacity to accede to higher education;
- Holders of other higher education courses, técnico superior profissional diplomas, and diploma de especialização tecnológica (a postsecondary course certificate);
- Holders of the licenciado degree wishing to apply to Medicine;
- International students.

In addition, students who have been or are registered and enrolled in higher education are allowed to apply for readmission or to opt for another institution/programme pairing.

The special competitions for applying to higher education are held by higher education institutions.

Admission to the second cycle of studies

Those who meet the following conditions may apply to the cycle of studies that leads to the Curso de Pós-graduação:

- Holders of the licenciado degree or legal equivalent;
- Holders of a foreign academic degree duly recognised as satisfying the objectives identical to the licenciado degree by the relevant scientific body of the higher education institution they wish to be admitted to;
- Holders of an academic, scientific or professional curriculum vitae that is recognised as attesting to the capacity to carry out this cycle of studies by the relevant scientific body of the higher education institution they wish to be admitted to.

The relevant bodies of each higher education institution are responsible for the regulations, application requirements and selection criteria for admission to this cycle of studies.

Admission to the third cycle of studies

Those who meet the following conditions may apply to the cycle of studies that leads to the Curso de Doutoramento:

- Holders of the **mestre** degree or legal equivalent;
- Holders of a licenciado degree who have a particularly relevant academic or scientific curriculum vitae that is recognised as attesting the capacity to carry out this cycle of studies by the relevant scientific body of the higher education institution they wish to be admitted to;
- Holders of an academic, scientific or professional curriculum vitae that is recognised as attesting the capacity to carry out this cycle of studies by the relevant scientific body of the higher education institution they wish to be admitted to.

The relevant bodies of each higher university or university institute are responsible for the regulations, application requirements and selection criteria for admission to this cycle of studies.

Admission to CTeSP

Those who meet the following conditions may apply to a CTeSP:

- Holders of a secondary education course or legal equivalent;
- Applicants aged over 23 who have passed the special exams for assessing their capacity to attend higher education required for a particular course;
- Holders of diploma de especialização tecnológica, técnico superior profissional diploma or of a degree wishing to undergo reskilling.

The specific conditions to apply for a técnico superior profissional course are set by higher education institutions, according to the field of the course.

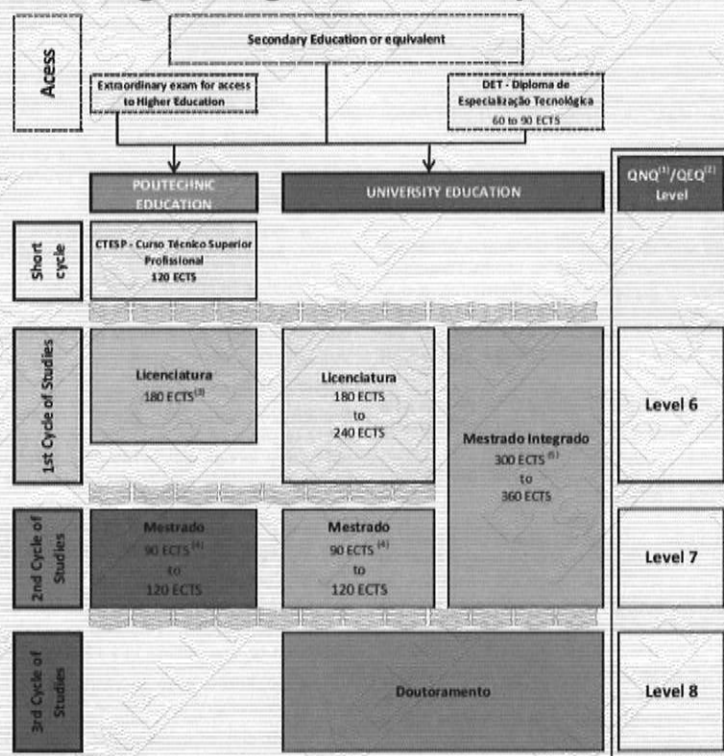

The competitions are held by higher education institutions.

Classification System

The técnico superior profissional diploma, as well as the licenciado and mestre degrees are assigned a 10-20 final classification on a numerical scale from 0 to 20, as well as its equivalent in the European scale of comparability of classifications.

The academic degree of doutor is assigned a final classification pursuant to the regulating standards approved by the awarding university or university institute.

Diagram of the Portuguese Higher Education System according to Bologna

(1) QNQ - National Qualifications Framework.

(2) UEQ - European Qualifications Framework.

(3) Except when in order to exercise a certain professional activity requiring education and training ranging between 210 and 240 ECTS.

(4) In exceptional circumstances, a cycle of studies leading to a Mestre degree in a specialized field may have 60 credits, resulting from a stable and consolidated practice in that specific field at international level.

(5) A Mestre degree may also be awarded following an integrated cycle of studies, for access to a professional activity, if the length: a) is established by European Union regulations; b) results from a regular and consolidated practice within the European Union; in such cases, a Licenciado degree is awarded to students having obtained 180 ECTS (3 years, 6 semesters).

Frequency: S Semester

Lecture hours (contact) for semester (LH): Semester contact hours are calculated as the total week hours multiplied by the number of contact weeks (an unit with an annual frequency **A** corresponds to 30 weeks whilst **S** includes 15 weeks and **T** 8 weeks).

ECTS ECTS Credit System

Credits: 1 year = 60 ECTS
1 semester = 30 ECTS

Lang : Language in which the course was lectured.

Classification (CI.): National Grade Scheme - minimum final mark of 10, in a 0 to 20 grading scheme is necessary to be approved at each curricular unit.

ECTS classification (CI. ECTS): The European scale of comparability of ECTS classifications to the modules or course units is based on all final marks of all modules or course grades, from the three academic years previous to the obtaining of the modules or course units. (ECTS Users Guide available in http://ec.europa.eu/education/library/publications/2015/ects-users-guide_en.pdf).

Additional information

- In the 2nd semester of the 4th curricular year of this student, the curricular units of Clinical Teaching X and Clinical Teaching XI were suspended due to the pandemic situation. It was adopted a strategy of substituting the teaching activities of the Clinical Teaching (CT) modality, proposed by the Portuguese Order of Nurses and validated by the Higher Education Assessment and Accreditation Agency (A3ES) and by the Ministry of Science, Technology and Higher Education (MCTES), ensuring that at least 1800 hours of clinical teaching were completed in the 8 semesters of the course, including 42 hours Tutorial Supervision (OT), which also occurred in a clinical context.

Despite this, the student returned to Clinical Teaching X, in June 2020, to have contact with the reality that currently dominates health services, linked to the pandemic coronavirus crisis, having performed 5 weeks (35 h/week) of CT in the context of Primary Health Care.
