

MOTIVATIONAL LETTER

Dear Admissions Committee,

I am writing to express my strong interest in joining the Master's Degree Managing Digital Transformation in the Health Sector. As a healthcare professional with over a decade of experience as a hygienist, I have continuously sought to expand my expertise through further training and professional development. Additionally, for more than ten years, I have been a trainer, and for the past six years, I have been actively teaching at the Haute Ecole Libre de Bruxelles. This dual role in both clinical practice and education has reinforced my commitment to advancing healthcare through knowledge-sharing and innovation. When I discovered the ManagiDiTH program, I immediately recognized it as the ideal opportunity to align my experience with my passion for digital health transformation.

Since 2011, my career has been dedicated to improving patient care and integrating evidence-based practices. My ongoing professional development has allowed me to adapt to the evolving needs of the healthcare sector. However, as digital technology becomes increasingly essential in healthcare, I recognize the need to deepen my knowledge in this area. By joining the ManagiDiTH program, I aim to gain the necessary expertise in digital health solutions to bridge the gap between traditional practices and modern innovations.

Furthermore, I see this master's program as an opportunity not only to acquire technical knowledge but also to engage with an international network of experts, researchers, and professionals who share the same vision for the future of healthcare. The interdisciplinary nature of the program will allow me to exchange ideas, collaborate on innovative projects, and develop solutions that can have a real impact on healthcare systems. I am eager to immerse myself in this dynamic learning environment, where I can broaden my perspectives and establish meaningful professional connections that will be valuable throughout my career.

The ManagiDiTH program stands out due to its focus on combining healthcare expertise with digital innovation, providing the perfect platform for me to enhance my competencies and contribute to shaping the future of healthcare. As a student, I hope to not only enrich my knowledge but also actively participate in discussions, research, and projects that will drive meaningful change in the sector.

With my experience in both clinical practice and academic, I am eager to deepen my understanding of digital health and its applications in the healthcare sector. I look forward to immersing myself in this learning environment, gaining valuable insights from experts, and expanding my skills to adapt to the evolving challenges of healthcare innovation.

Thank you for the opportunity to potentially become a student in the ManagiDiTH Master's Program. I am excited about the possibility of joining the program and contributing to its goals.

Sincerely,

Sara Nunes
