

## Motivation Letter

Dear Admissions Committee,

Healthcare is at a turning point, and I am determined to be part of the transformation. As a pediatric resident, I have seen firsthand how innovation can redefine patient care, and I strongly believe that technology is the key to a more efficient, accessible, and patient-centered healthcare system. This belief has led me to apply for the Master's Degree in Managing Digital Transformation in the Health Sector (ManagiDiTH).

My journey in medicine has been driven by a constant desire to do more and think differently. Studying abroad broadened my vision of healthcare, exposing me to diverse approaches and reinforcing my passion for continuous improvement. I strongly believe that digital innovation is shaping the future of medicine, and I am determined to be part of this transformation.

My ambition is to help revolutionize healthcare through telemedicine and digital health solutions, making high-quality medical care more accessible, efficient, and secure for all—without exception. I want to play an active role in leveraging technology to bridge gaps in healthcare delivery, ensuring that innovation translates into real-world benefits for patients and professionals alike.

The ManagiDiTH program represents an opportunity to enhance my expertise in digital healthcare solutions within a collaborative, international environment. I am eager to engage with experts in the field, gain hands-on experience, and contribute to the advancement of digital healthcare strategies that will shape the future of medicine.

Thank you for your time and consideration. I look forward to the possibility of joining this transformative program.

Sincerely,  
Catarina Mendonça, MD
