

I, João Victor Moreira Bertulani, residing in Cascais, Lisbon - Portugal, hereby certify that throughout my academic and professional journey, I have maintained a continuous commitment to excellence, dedication, and ethics in all activities undertaken.

During my studies in Digital Technologies and Health at ISCTE, I participated in several projects, most notably a collaboration with Hospital Amadora-Sintra, where I contributed to initiatives related to the management and organization of clinical data. This experience provided me with a deeper understanding of the importance of data protection in healthcare and the application of digital technologies to improve health processes.

With a strong passion for research and technological innovation, I consider myself prepared to join the ManagiDiTH Master's program at ISCTE, with the intention of contributing to the advancement of knowledge and developing technological solutions that generate a positive impact on society, particularly in the healthcare field.

I hereby declare, with full responsibility, my motivation and competence to join this program, committing to uphold the same values of dedication and ethics that have defined my journey so far.

Lisbon, February 2, 2025
