Subject: Motivation Letter – Application for the European Master Degree Programme (EQF Level 7)

Dear Members of the Admissions Committee,

My name is Ana Filipa Esteves Oliveira, I would love to join your Master's Degree. I believe that my academic background and professional experience make me a good and motivated candidate.

I completed my Bachelor's degree in Radiology in 2014. In 2017, I made the decision to move to the United Kingdom, where I worked as a Senior Radiographer for almost three years, consolidating and expanding my technical expertise in a multicultural and highly demanding environment. In 2020, I returned to Portugal, further deepening my clinical practice across several areas of Radiology. Alongside my professional activity I completed a Postgraduate Course in CT and MRI Imaging in 2022.

Now I feel it is the best moment to start a new challenge. The European Master Degree Programme immediately caught my attention, as it aligns perfectly with my career goals and interests. I work daily with advanced technologies and artificial intelligence, and know the growing impact of AI in supporting diagnostic processes, image analysis across all radiology fields, telemedicine and such more. I am highly motivated to improve my knowledge in this area and to contribute to the responsible and effective integration of these technologies into my clinical practice in the health sector.

It is with great enthusiasm that I submit my application for the European Master Degree Programme (EQF Level 7). Thank you for your time and feel free to get in touch.

Best Regards,

Ana Filipa Esteves Oliveira
