

## **Motivation Letter- Master's Programme Managing the Digital Transformation in the Health Sector**

To whom it may concern

I am writing to express my strong interest in the Master's program in Management of Digital Transformation in the Healthcare Sector. I finished my degree in Radiology in 2014 and have since worked across multiple European healthcare systems, including nearly three years in the United Kingdom and five years in Portugal, specifically at Santarém District Hospital. Currently, I am a radiographer at Coimbra University Hospital.

In 2022, I completed a postgraduate program in CT and MRI and this year I feel that I need to learn more about health technologies. As a radiographer working in a hospital environment, I've developed a deep appreciation for how technology supports diagnostics and patient care. Over time, I've become especially interested about how artificial intelligence is beginning to transform healthcare. Throughout my career, I have engaged with various digital tools, such as PACS and RIS systems, and also Telemedicine so my goal is to bridge the gap between clinical practice and technologies.

Thank you for considering my application and feel free to get in touch.

Best regards,

Ana Rita Oliveira
