

HELLENIC ARMED FORCES

CIS BATTALION

Letter of Commendation

It is hereby certified that **Anastasiadis Ioannis**, with Military Occupational Specialty "Computer Science & Telecommunications" served in the Hellenic Armed Forces CIS Battalion as:

"Systems and Networks Engineer"

During his military service at CIS Battalion (01/10/2011 – 101/07/2012), he was assigned the following:

- Administration and technical support of 80 ADTE LAN and WAN
- Installation, configuration and hardware upgrade of Cisco network equipment (routers, switches)
- Network mapping and rack management
- Administration of DNS server (Active Directory), File server (File Cluster), Print server, DHCP server, Syslog Server, TFTP server.
- Systems surveillance and administration of portal and military applications of HNDGS (Hellenic National Defense General Staff)
- Use and support of various office applications: MS Office 2003-2013, Open Office
- Troubleshooting and repairing PC's (Hardware – Software)
- Authoring of technical documentation regarding network systems and processes

He has shown zeal, professionalism, leadership qualities and competence in his work. He is a highly intelligent individual that can significantly contribute to any project he participates in. He has extensive and important experience in a wide range of technologies and the capacity and willingness to learn new ones when circumstances demand so. He is an excellent manager and team member with great communication as well as teaching and technology transfer skills.
