

Motivation Letter

To the Selection Committee of the ManagiDiTH Programme,

It is with great enthusiasm and a strong sense of purpose that I submit my application for the Master's programme Managing Digital Transformation in the Health Sector (ManagiDiTH). Having dedicated over three decades to healthcare as a nurse in a tertiary hospital, and having served in recent years as head nurse in a medical department at the Hippokration General Hospital of Thessaloniki, I now feel the need to evolve professionally and contribute actively to the modernization of the health sector through digital transformation.

My academic background includes a degree in Nursing and a Master's in Health Services Management, reflecting my long-standing interest in bridging clinical practice with effective healthcare administration. My many years of experience on the frontlines of healthcare have provided me with a deep understanding of the daily challenges posed by complex organizational structures, bureaucracy, and the demand for rapid, evidence-based decision-making—all areas where technology can and should play a pivotal role.

The ManagiDiTH programme represents an ideal opportunity for me to broaden my knowledge and acquire the tools necessary to contribute meaningfully to the transition of healthcare institutions into more agile and digitally mature organizations. I am particularly interested in the design and implementation of digital applications that can streamline operational processes, enhance interoperability, and ultimately improve the overall efficiency and quality of care.

What draws me especially to this programme is its unique international character and the collaboration between three European countries, offering a multi-dimensional perspective on health systems and fostering innovation through diverse professional and cultural experiences. I look forward to exchanging insights with fellow professionals and co-creating new frameworks for thinking and acting in the healthcare field.

Participating in ManagiDiTH is not only a personal goal, but also a commitment to the future of the sector I have served with dedication. It would be an honour to contribute to this academic community, bringing in my extensive hands-on experience and my sincere dedication to meaningful change.

Sincerely,

Athanasia Nouni

Registered Nurse – MSc in Health Services Management
