Gender: Female **Date of birth:** 01/03/2001 **Nationality:** Greek

ABOUT MYSELF

I am a graduate of the Department of Chemistry at the University of Patras with excellent knowledge of English and French, as well as strong computer skills. I am characterized by discipline and diligence. I respect hierarchy and possess a strong team spirit.

WORK EXPERIENCE

DELTA

City: Athens | **Country:** Greece

[01/07/2023 – 09/2023] **Food analyst**

During my internship at Delta, a food company, my main responsibility was to ensure that the milk met safety, quality, and regulatory standards before it reached consumers. I achieved that through chemical analysis, more specifically by measuring pH, fat content, protein levels, lactose content, and presence of antibiotics. I also evaluated the taste, smell, appearance, and texture of the milk and monitored the storage and processing temperatures to prevent spoilage or pathogen growth.

Pink Woman

City: Athens | **Country:** Greece

[11/10/2024 – 31/03/2025] **Sales assistant**

LANGUAGE SKILLS

Mother tongue(s): Greek

Other language(s):

English

LISTENING C2 READING C2 WRITING C2

SPOKEN PRODUCTION C2 SPOKEN INTERACTION C2

French

LISTENING C2 READING C2 WRITING C2

SPOKEN PRODUCTION C1 SPOKEN INTERACTION B2

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

CONFERENCES & SEMINARS

[02/2024 – 06/2024] **Industry CO2 – Carbon Capture, Storage & Utilization** Athens

This particular seminar contributed to the acquisition of specialized knowledge on technologies for capturing, storing and upgrading CO2 into high-value products.

[19/09/2024 – 08/11/2024] **Circular Economy** Athens

The seminar provided the necessary knowledge and skills for a comprehensive understanding of the concept of the Circular Economy, as well as its principles. Additionally, it enables the comprehension of the key characteristics of the circular model and the transition from a linear system to a circular one. Specifically, it presents the application of the Circular Economy in various stages of a product's lifecycle and the circular business model. Furthermore, it analyzes the applications of the circular model in the primary sector and the national strategy for the development of the circular economy in Greece. Finally, special emphasis is placed on the protection of the ecosystem, nature, and the country's biodiversity.

[27/01/2025 – 07/2025]	Bioinformatics: Analysis and Practical Applications Athens
	<p>Through this seminar the ability to fully utilize biological data and conduct analyses will be acquired. Specifically, it will be focused on DNA sequence analysis and protein structures, the study of genomic data, metagenomics, as well as bioinformatics research methodologies using the Python programming language.</p>
