

Declaração

Para os devidos efeitos se declara que o técnico superior de anatomia patológica **Marco André Pinto Pereira** desempenhou funções nos Laboratórios de Histopatologia e de Citopatologia do Serviço de Anatomia Patológica do Instituto Português de Oncologia de Lisboa Francisco Gentil (IPOLFG), desde Maio de 2010 até Outubro de 2022. Ao longo destes doze anos desempenhou as seguintes funções:

1. Laboratório de Histopatologia (90.000 lâminas anuais)
 - a. Receção de biópsias e peças operatórias;
 - b. Preparação das peças operatórias para exame macroscópico;
 - c. Preparação de biópsias para processamento automatizado;
 - d. Preparação e colaboração no exame macroscópico de peças operatórias;
 - e. Inclusão em parafina, microtomia e coloração de hematoxilina-eosina de biópsias e peças operatórias;
 - f. Técnicas de histoquímica em cortes histológicos de biópsias e peças operatórias;
 - g. Controlo de qualidade macroscópico e microscópico;
 - h. Arquivo de lâminas histológicas e blocos de parafina;
 - i. Responsável pela optimização do sistema informático laboratorial (LIS).
2. Laboratório de Citopatologia (8.000 amostras anuais)
 - a. Receção de amostras citológicas;
 - b. Processamento de amostras biológicas em "ThinPrep", citospin e citobloco;
 - c. Apoio à realização de punções aspirativas.
3. Tecnologia digital para processar, analisar e armazenar imagens digitais de lâminas histológicas (Patologia Digital).
4. No âmbito da colaboração pedagógica entre o IPOLFG e a Escola Superior de Tecnologia da Saúde de Lisboa, exerceu funções de orientador de estágios curriculares do curso de licenciatura em "Ciências Biomédicas Laboratoriais" na valência de "Histotecnologia".

Ao longo do seu percurso no nosso serviço foi assíduo e pontual. Demonstrou grande capacidade de trabalho, competência e sentido de responsabilidade, tendo contribuído significativamente para a manutenção dos elevados padrões de qualidade praticados nos nossos laboratórios.

Paula Cardoso
Técnica Coordenadora do Serviço de Anatomia Patológica

Pathological Anatomy Service

CERTIFICATE

For all due purposes, it is hereby certified that the senior pathological anatomy technician Marco André Pinto Pereira performed duties in the Histopathology and Cytopathology Laboratories of the Pathological Anatomy Service of the Portuguese Institute of Oncology of Lisbon Francisco Gentil (IPOLFG), from May 2010 to October 2022. Throughout these twelve years, he performed the following functions:

1. Histopathology Laboratory (90,000 slides annually)
 - a. Reception of biopsies and surgical specimens;
 - b. Preparation of surgical specimens for macroscopic examination;
 - c. Preparation of biopsies for automated processing;
 - d. Preparation and collaboration in macroscopic examination of surgical specimens;
 - e. Paraffin embedding, microtomy and hematoxylin-eosin staining of biopsies and surgical specimens;
 - f. Histochemical techniques on histological sections of biopsies and surgical specimens;
 - g. Macroscopic and microscopic quality control;
 - h. Archiving of histological slides and paraffin blocks; i. Responsible for optimizing the laboratory information system (LIS).
2. Cytopathology Laboratory (8,000 samples annually)
 - a. Reception of cytological samples;
 - b. Processing of biological samples in "ThinPrep", cytospin and cytoblock;
 - c. Support in performing aspiration punctures.
3. Digital technology for processing, analyzing and storing digital images of histological slides (Digital Pathology).
4. Within the scope of pedagogical collaboration between IPOLFG and the Lisbon School of Health Technology, he performed functions as supervisor of curricular internships for the degree course in "Laboratory Biomedical Sciences" in the field of "Histotechnology".

Throughout his career in our service, he was diligent and punctual. He demonstrated great work capacity, competence, as well as sense of responsibility, having contributed significantly to maintaining the high quality standards practiced in our laboratories.
