

Dear Members of the Admissions Committee,

My name is **Nikolaos Ftaras**, and I am a final-year medical student currently completing the sixth and final year of my studies. At this stage, I have successfully completed the majority of my coursework and clinical training, with only two courses remaining for the full completion of my degree. My graduation and official awarding of the medical diploma are scheduled for July 2025.

I am writing to express my strong interest in the **Master's program Managing Digital Transformation in the Health Sector**, which I consider a crucial step in both my academic and professional development. Throughout my medical studies and daily clinical experience, I have gained a profound understanding of the complexities and demands within healthcare systems, not only from a clinical perspective but also in terms of organizational strategy. This dual insight has made me increasingly aware of the urgent need for sustainable and effective digital transformation in the health sector.

The program's focus on fostering the development of new procedures and innovative service models is directly aligned with my aspirations to actively contribute to the evolution of modern healthcare systems. Furthermore, its flexible structure, which allows it to be pursued alongside professional responsibilities, makes it an ideal choice for me, as I will begin my medical residency in September. This unique compatibility will enable me to immediately connect the program's content with real-world clinical experience and apply its principles in practice.

Being an excellent user of the English language, both written and spoken, I am fully prepared to engage with the program's academic material and collaborate effectively in an international learning environment.

Furthermore, I aspire to act as a connector between clinical practice and digital innovation, helping to develop healthcare solutions that truly reflect the needs of patients, practitioners, and systems alike.

Thank you very much for considering my application. I would be honored to join your academic community and contribute with commitment, creativity, and enthusiasm to the success of the program.

Sincerely,

Nikolaos Ftaras
