Dear Admissions Team,

I am excited to apply to the master in Managing Digital transformation in the Health Sector (ManagiDiTH).

With a strong foundation as Cardiac Physiologist specialised in Rhythm Management/Electrophysiology, I transitioned into Boston Scientific almost four years ago, which provided me access to cutting-edge technology in the Electrophysiology field. Most recently, I joined the RhythmCARE remote support hub within the same company, providing remote clinical support to Electrophysiology procedures and training.

My goal is to integrate digital innovation into my current role as well as explore emerging technologies that enhance remote clinical support and refine my expertise in healthcare solutions.

I would be honoured to bring my experience and insights to this program and welcome the opportunity to discuss my application further.

Thank you for time.

Sara Clemente
