

Dear Selection Committee,

I am writing to express my strong interest in the Master's Programme *Managing Digital Transformation in the Health Sector (ManagiDiTH)*. With a solid academic background in Nursing (T.E.) and Public Administration (B.A.), complemented by ongoing postgraduate studies in Health Unit Management at the International Hellenic University (I.H.U.), I am eager to further develop my expertise at the intersection of healthcare and digital innovation.

As a permanent employee at Hippokration General Hospital of Thessaloniki, I have acquired valuable hands-on experience in clinical environments, collaborating with interdisciplinary teams and adapting to evolving healthcare needs. I am particularly interested in the implementation of smart technologies, electronic health records, and data-driven decision-making processes within psychiatric units and broader hospital management.

My motivation to join ManagiDiTH stems from my ambition to contribute to the modernization of the Greek public health sector through the strategic use of digital tools and systems. The programme's interdisciplinary approach, European perspective, and focus on digital skills and interoperability align perfectly with my professional goals and vision for the future of healthcare services.

I am confident that my academic qualifications, language skills (English B2, German C1), and proven commitment to lifelong learning make me a strong candidate for your programme. I am fully prepared to meet the demands of the curriculum and to actively contribute to its collaborative learning environment.

Thank you for considering my application. I look forward to the opportunity to further discuss how I can contribute to and benefit from the ManagiDiTH programme.

Kind regards,

TZIOTZIOU ANTONIA
