ABOUT MYSELF

A passionate professional in the field of applied health, I am committed to advancing the health and well-being of individuals and communities through evidence-based practices. I have gained a deep understanding of various applied health programs, including planning health programs, utilizing health data to make informed decisions, evaluating issues that impact health, communicating health information, and developing effective strategies for addressing complex public health challenges and promoting healthy behaviors.

I have successfully completed three certificates (Community Health Planning and Implementation; Community Health Methods and Evaluation; Epidemiology, Medical Billing and Coding), and an Associate and a Bachelor degree in Applied Health.

Overall, my diverse experience in applied health programs has provided me with a unique perspective on the interconnectedness of these fields and their potential to improve population health outcomes. I am confident that my skills and expertise will enable me to make a significant contribution to any organization's applied health initiatives.
