## ManagiDiTH Master's Programme

Dear evaluation committee,

I am writing to express my enthusiastic interest in the Master of Managing Digital Transformation in the Health Sector (ManagiDiTH) programme. With a strong background in cluster management, technology transfer and innovation, I am eager to enhance my expertise and contribute to the transformative journey of digital health.

In my current role as the Cluster Manager of the Hellenic Digital Health Cluster (HDHC) I am trying to advance digital health innovations. Leading various initiatives, including securing over 1Mil in EU funding and increasing cluster members by 50%, made clear to me the transformative potential of digital technologies in healthcare. Upon reviewing the curriculum, I am convinced it aligns perfectly with my aspirations to drive digital transformation in the healthcare sector. The transnational and interdisciplinary nature is particularly appealing to me. Collaborating with peers and faculty from diverse backgrounds will enrich my learning experience and broaden my perspective on global healthcare challenges and solutions.

As you can see from my CV, my educational background is in engineering, and my work experience revolves around technology transfer and innovation. However, I seek deeper knowledge in areas such as data interoperability, cybersecurity, and digital health regulation. At HDHC, we are currently participating in significant projects that focus on health data spaces and telemedicine with various partners and stakeholders. By improving my skills in these areas, I believe I will be able to fulfill my role more effectively and support our members more efficiently.

In conclusion, I am confident that the ManagiDiTH programme is the perfect fit for my academic and professional aspirations. I am eager to leverage my background in cluster management and technology transfer to contribute to the programme and learn from the distinguished faculty and my fellow students.

Thank you for considering my application. I look forward to the opportunity to contribute to and grow with the ManagiDiTH community.

Yours sincerely,

George Dimitriou
